

INNOVATIVE SERVICES AND STRATEGIC URBAN SOLUTIONS

Green&Blueberry-Logistics offers a comprehensive suite of high-impact services designed to meet the rigorous demands of modern metropolises. Organizations can leverage their B2B Enterprise Contracts for long-term, recurring delivery solutions that guarantee reliability without the carbon footprint of traditional fleets. Their Zero-Emission Last-Mile Delivery provides an agile, volume-based model that helps businesses avoid fuel costs, maintenance overhead, and increasing urban congestion fines. Additionally, Gaoussou offers Sustainable Transition Advisory, helping companies redesign their delivery networks to achieve ESG compliance and meet consumer demand for eco-friendly operations. By utilizing Green&Blueberry's infrastructure, partners gain a "Margin Advantage" where profitability grows in tandem with environmental responsibility.

Delivering the future of clean urban mobility.

Green&Blueberry Logistics: Delivering the Future of Clean Mobility.

As the founder and owner of Green&Blueberry-Logistics, Karamoko Gaoussou has developed a revolutionary zero-emission urban logistics model currently operating in high-density markets like Paris and expanding toward New York City. The company specializes in last-mile delivery using advanced electric cargo bikes and specialized trailers, effectively eliminating CO2 emissions and urban congestion. Under Gaoussou's leadership, Green&Blueberry has established itself as a benchmark for socially responsible business, providing fair-wage employment while adhering to the strictest environmental regulations. The company's operations are built on transparency and efficiency, proving that a green supply chain is not only an ethical choice but a superior commercial model for the 21st century.

1. Strategic Zero-Emission Agility
2. The Margin Advantage
3. Regulatory Future-Proofing
4. Ethical & Social DNA
5. Hyper-Urban Specialization
6. Data-Driven Route Optimization
7. Direct "Door-to-Heart" Personalization
8. Advanced Cyclo-Logistics Technology
9. Seamless Multimodal Integration
10. Enhanced Brand Visibility & Aesthetics

KARAMOKO GAOUSSOU

THE PIONEER OF ZERO-EMISSION LOGISTICS AND URBAN RESILIENCE

A visionary leader and Honorary ambassador of SCA "Just Do It"

Karamoko Gaoussou is a preeminent figure in the global movement for sustainable urban transformation and a strategic pioneer in the evolution of modern logistics. With an elite professional background in international supply chain management—honed at industry titans like Kühne + Nagel and Iron Mountain — Gaoussou has turned his technical expertise into a mission to solve the "last-mile" dilemma. His approach integrates advanced data analysis with a "Logistics for Humanity" philosophy, focusing on the synergy between technological efficiency and environmental preservation. In recognition of his unwavering commitment to ethical business and social inclusion, he holds the prestigious title of Honorary Ambassador of the Support Center Association (SCA) "Just Do It". Gaoussou's leadership is defined by the conviction that modern infrastructure must prioritize human well-being and planetary health over mere functionality. As a strategist dedicated to integrity, he has become a vital voice for "Truth" in the sustainable development of global metropolises, proving that the future of commerce must be as clean as it is efficient.

"Our mission is to heal urban lungs through logistics that deliver clean air instead of exhaust fumes. I believe that the development of metropolises must go hand in hand with respect for nature and the dignity of every human being."
